The One Thing You'll Always Come Back To

Trusted Comfort for Generations

Since 1957, MM Foam has quietly shaped the way generations experience rest. From our pioneering natural latex mattresses to ergonomic pillows and lifestyle cushions, our sleep solutions have stood the test of time — not just in quality, but in the way they make people feel.

In every home, in every journey, there's always that one thing you return to — the comfort that knows you, the familiar support that never lets you down. At MM Foam, we've spent over six decades perfecting that feeling. Every product is designed with thoughtful detail and backed by science, offering not just relief but renewal.

Whether it's a mattress that remembers your contours, a pillow that cradles just right, or a travel essential that follows you from city to city—our products are made to be that one constant in an ever-changing world.

Because when comfort is crafted with care and proven over time, it becomes more than a product. **It becomes the one thing you'll always come back to.**

Licensed for luxury, naturally.

We use 100% organic natural latex, certified by GOLS (Global Organic Latex Standard), which guarantees environmentally and socially responsible sourcing and processing.

Registration, Evaluation, Authorization & restriction of Chemicals in products. Ensures that the products are free of carcinogenic, mutagenic & toxic substances. Our products are free of 224Nos of SVHC (substances of very high concern) substances regulated by European Union.

IS1741

CM/L6100104168

Our latex products are BIS certified, manufactured in full compliance with the Bureau of Indian Standards (BIS) Specifications IS:1741 - 2019, ensuring consistent performance and quality.

Indentation Hardness Testing Machine

Sag Factor Test Using Mannequin

In The Business Long Enough To Make Our Mattress Last Longer

MM Foam Latex Mattresses, with premium Natural Latex material, are of the highest-build quality. Our 65 years of expertise gives us the confidence to offer the best-in-market, and unrivalled 17-year warranty*.

Indentation Hardness Test

Indentation Hardness Index evaluates the firmness of the mattress, by measuring its resistance to a 100Kg indentor.

Sag Factor Test

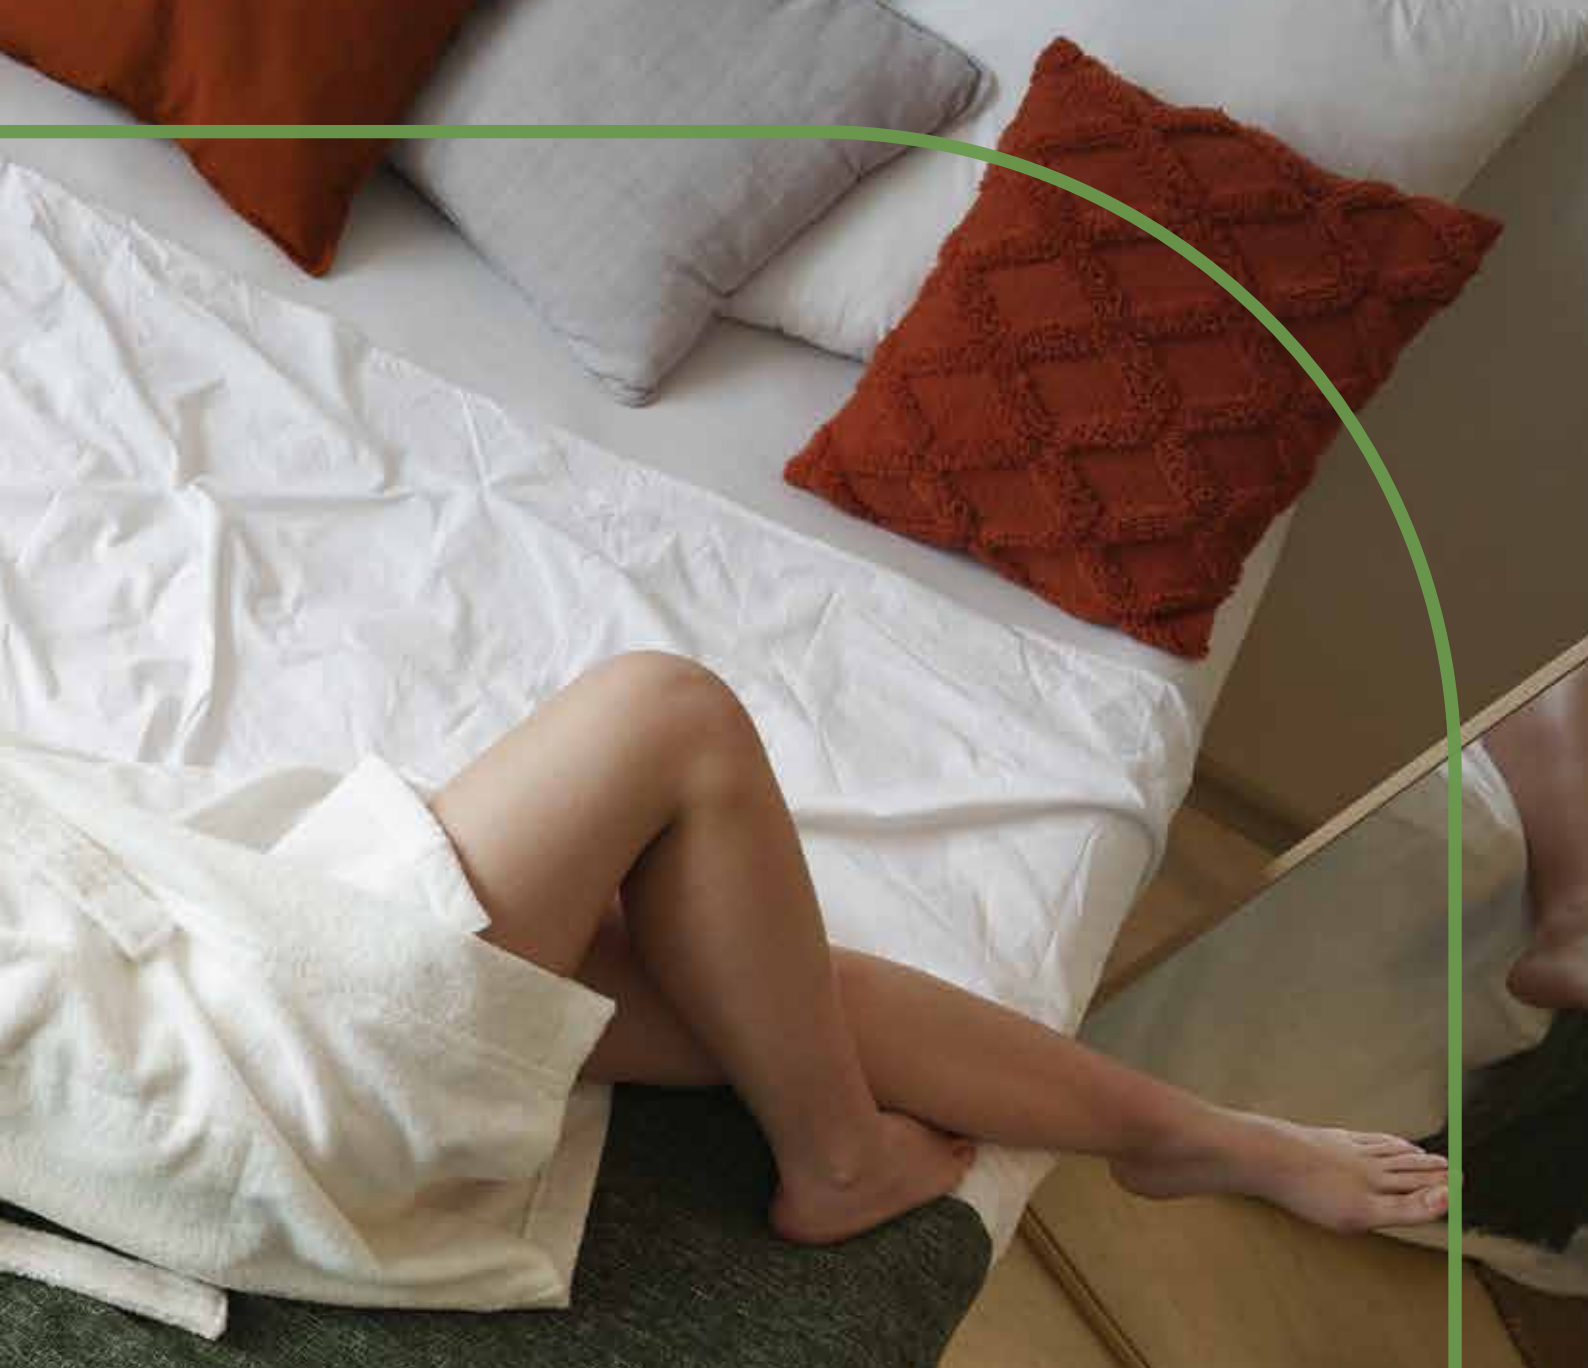

Mannequin test is an in-house test method developed by our team in order to analyse permanent set on mattresses, thereby stabilising the warranty period for the same. In this test method we place a mannequin with average weight of a human being on the mattress for a calculated time period and the permanent set is calculated.

**Each MM Foam Latex Mattress undergoes stringent quality tests as per
Bureau of Indian Standards (BIS) Spec: IS 1741-2019**

Organic Luxury. Breathable Wellness.

The Pincore Mattress is a timeless expression of luxury sleep, crafted from 100% organic natural latex and designed to cradle your body with gentle support. Its signature pin-core technology promotes constant airflow, keeping your sleep cool, dry, and hygienic throughout the night.

Soft yet responsive, it adapts to your contours to relieve pressure points and improve circulation — all while offering undisturbed rest and long-term durability. Naturally hypoallergenic and free from toxins, Pincore is comfort you can feel good about — a luxurious, organic choice for restorative sleep.

Orthopaedic Support. Organic Luxury.

Experience firm, restorative sleep with the Hardcore Mattress — a premium 100% organic natural latex mattress built for orthopaedic-grade support. Denser and more resilient than its Pincore counterpart, it's engineered to promote proper spinal alignment and reduce pressure on joints, making it ideal for those who prefer or require firm back care.

With the same breathable pin-core construction for temperature regulation and hygiene, Hardcore blends organic purity with long-lasting luxury comfort — offering the strength your body needs, wrapped in nature's finest materials.

Two Comforts. One Wellness Solution.

The Dual Harmony Mattress is thoughtfully designed to support your body's changing needs — offering both medium-soft and firm comfort in a single mattress. One side features organic natural latex with pincore technology that gently adapts to body contours and breathes, promoting pressure relief and cooler sleep. Flip it over for the firm rebonded foam layer, ideal for those who need extra support, improved posture alignment, or are on the heavier side.

Crafted for long-term wellness, Dual Harmony adapts effortlessly to individual sleep preferences, making it ideal for couples, guest rooms, or anyone seeking versatile support. The mattress's durable build is backed by a 10-year warranty — ensuring reliable, restful sleep for years to come.
